

eVerge Group Launches Project Analytics Express Implementation Solution

Plano, Texas (February 11, 2009) eVerge Group is pleased to announce the launch of their Project Analytics Express fixed fee, accelerated implementation solution. Project Analytics Express combines eVerge Group's knowledge, experience and expertise in business intelligence with the power of Oracle's Project Analytics application to enable organizations to rapidly implement a project analysis and reporting solution.

Oracle Project Analytics is a complete analytics solution that delivers insight into project-based data, so all team members can seamlessly track the lifecycle of a project with complete and timely information, including past, present and future project performance. Project Analytics dashboards give managers the ability to better control project costs, maximize cash flow, improve project performance and identify projects at risk.

Using Project Analytics, eVerge Group has packaged its proven methodology, standard project plan and readiness checklist with pre-built data models, ETL Adaptors, dashboards and reports to drastically reduce the cost and time required to implement the solution. eVerge Group blends years of experience as a PeopleSoft project implementation partner with a fully dedicated BI team to greatly reduce the implementation time and thus speed the time to realizing the return on investment. eVerge Group's fixed fee pricing helps organizations budget for and control spending associated with the implementation of the Project Analytics solution.

About eVerge Group

Founded in 1993, eVerge Group is a leading integrator of business applications software, focused on delivering Enterprise Resource Planning (ERP), Customer Relationship Management (CRM), Business Intelligence (BI), Master Data Management (MDM), and Enterprise Content Management (ECM) solutions.
