

# eVerge Group Launches School Performance Analytics Solution

**Plano, Texas (May 28, 2009)** eVerge Group is pleased to announce the launch of their School Performance Analytics (SPA) solution. SPA is a business intelligence application designed specifically to enable school districts to better report and analyze data critical to improving student and school performance, as well as, adhere to state and federal reporting requirements. It provides district administrators with a tool to identify critical trends, predict outcomes and make quicker, more intelligent, data-driven decisions by streamlining the analysis of overwhelming volumes of data.

The School Performance Analytics solution combines eVerge's vast K-12 expertise with the power of business intelligence software to deliver a pre-configured reporting and analysis solution that is tailored to the specific needs of K-12 entities. "Through our work with school districts across the country, we have developed keen insight into the reporting and analysis challenges unique to the K-12 environment," said Esteban Neely, president of eVerge Group. "Utilizing OBI EE as the engine, we have developed a rapidly deployable solution that gives school districts the comprehensive tool they need to view, analyze and understand school and student performance within their district."

As part of their product launch, eVerge Group will be conducting a web demonstration of the SPA solution on Tuesday, June 16<sup>th</sup>, 2009 from 3:00 p.m. to 4:00 p.m. (CDT). More information on School Performance Analytics and the web demonstration can be found on [www.evergegroup.com/bi\\_spa.htm](http://www.evergegroup.com/bi_spa.htm).
