

eVerge Group Launches ReadyExpress Accelerated CRM Implementation Solution

Plano, Texas (June 10, 2009) eVerge Group is pleased to announce the launch of their ReadyExpress accelerated CRM On Demand solution. ReadyExpress combines eVerge Group's knowledge, experience, and expertise with the power of Oracle CRM On Demand to enable organizations to become fully operational on the world's leading CRM solution in as little as four weeks.

eVerge Group offers three ReadyExpress options, allowing companies to tailor an implementation to their specific needs, such as the number of users and the complexity of their usage. Each option comes with a pre-defined statement of work and implementation schedule, standard reports and a fixed implementation cost. This allows companies to reduce the implementation time, complexity and risk associated with their CRM system implementation.

The ReadyExpress offering is built on eVerge Group's experience as both an implementer and user of Oracle's CRM On Demand. "The ReadyExpress solution design is based on 10 years of CRM implementation experience, as well as our experience as a CRM On Demand user," according to Esteban Neely, president of eVerge Group. "This streamlined implementation approach makes Oracle CRM accessible to companies that previously wouldn't have considered it within their reach."

About eVerge Group
