## **Oracle Recognizes eVerge Group's Energy and Utilities Industry Solution with an Oracle North America Titan Award**

### **Oracle CRM On Demand Solution Drives Unified Sales Approach and Improved Reporting at International Offshore Well Services Company**

**Plano, Texas (October 3, 2011)** – eVerge Group is pleased to announce that it has been named an Oracle North America Titan Award winner in the Energy and Utilities Industry Solution category for 2011. The Oracle PartnerNetwork North America Titan Awards recognize partners for their ability to deliver Oracle solutions and services that drive business and customer value, developed or delivered in fiscal 2011. These awards recognize partner excellence in a number of categories, including sales, marketing, and solution development.

eVerge Group received the award for its Oracle CRM On Demand solution, which enabled an international offshore oil well services provider to unify the way it sells to and services its customers. The solution has also improved the reporting and analysis of information at both the field and management levels. The Oracle CRM On Demand application is one component in eVerge Group's comprehensive oil and gas solution, which also encompasses Oracle's Business Intelligence (OBIEE), energy data management, land & royalty management, regulatory and compliance control and retail loyalty management. According to eVerge Group president, Esteban Neely, "By combining our broad application expertise together with our oil and gas industry experience, we've developed a solution that enables service providers in the oil and gas industry to address a broad range of operational and management challenges using an integrated platform."

As a Platinum level member in Oracle PartnerNetwork (OPN), eVerge Group has a history of delivering Oracle software implementations across a range of industries. eVerge Group also received an Oracle North America Titan Award in the Education Industry Solution category.

"Oracle's valued partner community in North America continues to reach new levels of expertise and innovation in developing and implementing Oracle technologies and delivering value-added services to joint customers," said Ted Bereswill, Oracle Senior Vice President of North America Alliances and Channels. "This year's Titan Award winners reflect the powerful combination that Oracle and our Specialized partners bring to customers across the enterprise and distinct industries."
