

Enterprise Resource Planning (ERP)

As a long-standing Oracle Partner, eVerge Group delivers premier consulting services with the highest level of expertise and widest range of flexibility. We have extensive experience with all Oracle product lines, including Financial Management, Human Capital Management, Enterprise Performance Management, Supplier Relationship Management, and Service Automation. Our ERP consultants average over 5 years of technical software experience and bring industry-specific knowledge to each engagement.

With eVerge Group, you can:

- Develop and implement an ERP strategy
- Realize improvements in operating efficiencies
- Enhance workforce productivity
- Improve customer satisfaction
- Reduce operating costs

Why eVerge Group?

Through years of experience with Oracle implementations and upgrades, we have developed a flexible approach to deliver fast and efficient results with minimal impact to your current environment. Our combination of technical and functional expertise ensures that your organization takes full advantage of the software's functionality. Our proven best practices and experienced consultants, combined with our relentless commitment to excellence, result in unparalleled customer satisfaction.

- Our proven track record, supported by over 200 successful software implementations/upgrades, means you're working with a partner with a solid history of delivering results
- Our experienced consultants understand both the technology and the business processes, assuring that you'll get a business solution, not just a technology solution
- Our smaller, more highly skilled teams work more efficiently, delivering more cost-effective results
- Our PrecisionFit® Process, which utilizes iterative prototyping and maximizes user involvement in the system development, results in a validated system that you'll be prepared to manage at implementation
- Our commitment to customer satisfaction means we'll do what it takes to make sure we deliver the results you expect

eVerge Group has implemented ERP solutions in a variety of industries. Some of our recent customers include:

- The City of Oklahoma City
- Oakland County, Michigan
- The School District of Palm Beach County
- Western Farmer's Electric Cooperative
- City of Plano
- Abilene ISD
